

Self-assessment Topic 4

1. **If during the descent the mask squeezes against the face**
 - A.- We change it for the replacement mask
 - B.- We avoid it diving with a swimming goggle
 - C.- It is caused by interior overpressure
 - D.- We expel air through the nose to compensate

2. **When do we start with the ear equalization?**
 - A.- When we start the descent
 - B.- When the ears start to hurt
 - C.- When our buddy does it
 - D.- Never, it is very dangerous

3. **Can we hold our breath when we are diving?**
 - A.- Yes, but only during the ascent
 - B.- Yes, but only during the descent
 - C.- Yes, but without changing depths
 - D.- Never, we must always breathe normally

4. **According to Boyle's law in the gases**
 - A.- If pressure decreases, its volume also does
 - B.- If pressure increases, its volume also does
 - C.- As pressure decreases the volume increases
 - D.- Are not affected as they are contained in a metallic recipient

5. **Pulmonary (Lung) overexpansion**
 - A.- Is a mild accident
 - B.- Is a serious accident often deadly
 - C.- Cannot happen when diving
 - D.- Cannot happen because lungs cannot over expand

You have obtained (to pass you need a minimum of 4)
